REMARKS

25X1X

1. On four days in August 1950 the improvised airfield near Valeni (XB 62) was used by Yak fighters. * Army units practiced in the Valeni area at the same time.

25X1A

Comment. This is the first information on a landing field near Valeni. It was presumably used by aircraft in connection with maneuvers held in Southern Rumania in August 1950. It is not known whether the aircraft were from a Rumanian or a Soviet fighter unit.
